

# Christian IN **BLACK** GRAPHIC DESIGN MINISTRY

## Personal Testimony

As far back as I can remember I was raised as a Christian with a strong-believing mother, and as so was always headed to Church every Sunday in the morning; however at this time of life, this was more a chore on the list of things to get done so I could play video games and watch movies. Around the very beginning of the 2010s this church would crumble with disagreements between pastor and elders. For eight years, I still held a belief in God, however it was secular and chaotic with very self-deifying views. My beliefs lead me to Wicca, and then progression further even more to Vampirism and the astral realm (though various, it was the Tarot, and dealing with spirits which procured my interest mainly) which lead me to spiritual destruction. It was here that God would pull me back into His family.

While in a depressive-like state and no direction, I was pointed towards a simple visit to a new Church on Sunday, eight years since attending a service; and what I experienced was completely foreign. A Church that bore a family atmosphere, and good biblical teaching. I frequently went to more services, and was invited to take part in Youth Group, then I was asked to help lead the Youth Group from which came to lead me to seek further Church leadership. I took part in Men's retreats, I preached sermons, and I found my relationship with Christ strengthening; Christ lead me to my own Biblical Associates at a Bible College in Wisconsin (a place that I will always find to be an awesome home), and now here we are, a graphic designer with a Biblical Associates, to the service of the Church and Mission.
